### **The Inn at Honey Run & Homestead Furniture Partner for the Redesign of the Iconic Honeycomb Suites**

Millersburg, OH: The Inn at Honey Run's Club-level Honeycombs, one of Ohio's most unique lodging resorts, will be undergoing a major redecorating effort in partnership with Homestead Furniture. Based in Mt. Hope, Ohio, Homestead Furniture will be guiding design and concept process, custom furniture production and final installation. This project, the Honeycomb Homecoming, is anticipated to be open to guests in early 2026.

When the Honeycombs at The Inn at Honey Run opened in 1988, they drew national attention for their distinct integration within the natural landscape. The twelve private-entry rooms are built directly into the hillside to maintain the rolling hills and natural beauty associated with Amish Country. Their interiors have been updated over the years but never completely revamped. Each room's interior showcases a distinctive floor plan that will pair with the new design concepts.

Jason Nies, the owner of The Inn at Honey Run, shared his excitement about working with the Homestead team. "Homestead Furniture has a long history and reputation for their high quality furniture. After recently touring their showroom, I was amazed by their furniture's design range," said Nies. "We are providing them with a blank canvas, and it will be a treat for our guests to experience the brand new Honeycombs."

Homestead Furniture's vice president, LaVern Hershberger, is leading the concept development for the new interior designs. He is approaching the project so that each room has its own character, whether referencing historical periods, architecture, artists or design styles.

"This partnership pairs two of Holmes County's long standing and well renowned businesses in a way that will benefit everyone who stays the night in the new Honeycombs," said Hershberger. "Homestead's involvement with this project will be a highlight for our company."

Updates on the Honeycomb Homecoming will be shared on The Inn at Honey Run's website and social media channels.

###

About Homestead Furniture: Celebrating its 35th anniversary in 2025, Homestead Furniture crafts interior furnishings for customers who appreciate quality and customization. The company's headquarters, showroom, manufacturing facility, and event center are located in Mt. Hope, Ohio. As a family company with leadership spanning three generations, Homestead Furniture prides itself on the highest standards of construction quality and keeping ahead of interior décor and furnishing trends. More information about the company is available at [www.homesteadfurnitureonline.com](http://www.homesteadfurnitureonline.com).

About The Inn at Honey Run: Nestled on 56 peaceful acres, The Inn at Honey Run is an adult-only boutique resort located in the heart of Ohio's Amish Country. Each of The Inn's 42 well-appointed guest rooms, cottages, and earth-sheltered Honeycombs are designed to give guests a truly private and unique lodging experience. The Inn is also home to an award-winning restaurant, Tarragon, and the Holmes County Open Air Art Museum (OAAM), that showcases original works from local and regional artists.
